

Balsam Oil

The intoxicating scent from this infused oil transports you to an ancient pine forest. Balsam Oil is one of the richest sources of vitamin C known. Absorb the nutrient value through your skin. Use for massages, in or after the bath, and all over your body.

\$15 100ml

Herbal Tinctures

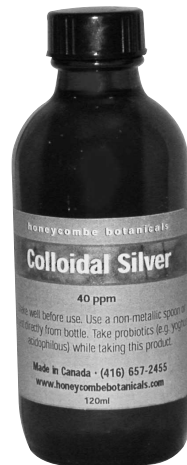

Our herbs are wild-crafted, hand-picked and made according to "The Wise Woman" tradition for maximum potency and effectiveness. These include:

- St. John's Wort
- Parasite Cleanse
- Burdock

\$45 100ml

Colloidal Silver

Silver is a powerful, natural prophylactic/antibiotic, used for thousands of years, with no side effects. It is a catalyst, disabling the particular enzyme that all one-celled bacteria, fungus and virus use for their oxygen metabolism. They suffocate. Yet it's of no harm to human enzymes or any part of the human body chemistry. And it kills all disease-causing

organisms, in six minutes or less, upon contact, even those pleomorphic, no matter how they mutate. Resistant strains fail to develop, and the body doesn't develop a tolerance. Colloidal Silver is both a remedy and prevents infections. Having sufficient Colloidal Silver in your body is to have a superior, second immune system.

100% PURE CANADIAN BEESWAX CANDLES

How to take care of your Beeswax candles

1. When you light your candle make sure the wick is trimmed to a 1/4."
2. Allow the candle to burn long enough so the pool of wax spreads close to the edge of the candle and the wall softens. Then push the wall of the candle towards the wick. This way the entire candle is used.
3. Do not allow the wick to get too long (it will flicker) while burning.
4. Never blow out your beeswax candle. Dunk it in the pool of wax with a little tool or snuff it out.

My BeeCreams, Honeybee Products and Beeswax Candles all contain the finest organic ingredients, wild-harvested from our Apiary in Northern Ontario, Canada.

ABOUT HONEYCOMBE BOTANICALS

I'VE ALWAYS HAD A PASSION for preventative health and healing, and it's lead me to study nutrition, herbology, iridology, Yoga, Thai massage and counseling. It's even compelled me to don a beekeeper's suit and stick my hands into a hive populated by thousands of honeybees! Just to collect their remarkable produce. After researching the products of the honeybee, I knew they were one of nature's most important healing gifts.

Honeycombe Botanicals is born out of my desire to share with others the remarkable healing properties of honey, beeswax, propolis and pollen. My BeeCreams, Honeybee Products and Beeswax Candles all contain the finest organic ingredients, wild-harvested from our Apiary in Northern Ontario, Canada. We always manufacture our products in ways that help sustain the environment.

I also believe it's important to get my hands in the dirt. I wildcraft herbs according to "The Wise Woman Tradition." Because I keep quality control throughout the process, the organic tinctures I create are potent and full of active ingredients.

I take very seriously the commitment I have to you, my customers, to provide you with the very best products and service. It's with great pride that I've watched my company grow through the years by word of mouth. Thank you for referring Honeycombe Botanicals to your friends and associates. It's the ultimate compliment!

I hope you enjoy our new catalogue.

With thanks and warm wishes,
Simone Swimmer

THE HEALING SUBSTANCES OF THE HONEYBEE

SINCE ANCIENT TIMES, honey and beeswax have been used as curative and protective agents for the skin. Thanks to its sugars, proteins, vitamins and mineral salts, honeybee substances nourish, tone and moisturize the skin.

But not all of its benefits have been explained by science. **Royal Jelly** is a nutrient-rich substance used to feed only the queen bee, who lives longer and grows bigger than the other bees. In clinical tests it has been shown to aid the skin's circulation. It has rejuvenative properties similar to estrogen and other sex hormones. But how many of its rejuvenative active ingredients work remains a mystery!

Propolis is a natural medicine collected from the beehive. It is scientifically proven to be anti-fungal, anti-bacterial and anti-viral. It is so effective that we use it in our BeeCream as a natural preservative. Some believe propolis aids healing

because it is a high vibrational substance. Used as a natural treatment for eczema, psoriasis and acne, it also strengthens the immune system, relieves inflammation, and heals wounds, burns, scars, warts and sunburns. It is anti-allergenic and has anaesthetic properties.

Beeswax has properties very similar to the sebum of the skin. It restores and balances the hydro lipid film on the skin's surface, stabilizes the skin's moisture level and creates an effective, protective barrier against harmful external agents which cause the skin to age and lose its vitality.

Honeycombe Botanical Skin Care products have a creamy, delicious texture that is absorbed into your skin and leaves a matte finish. And even better, our creams have a natural honey scent!

NATURAL BEECREAMS

Propolis BeeCream

100% NATURAL INGREDIENTS • ANTIBIOTIC, ANTIVIRAL, ANTIFUNGAL

\$25 60ml
\$150 500ml

This extraordinarily versatile cream supplies the skin with vitamins, minerals and trace elements. Use daily as a moisturizer or on skin irritations such as burns and sunburns, scars, warts, eczema, psoriasis, skin funguses, bug bites and acne. The smooth, silky cream is absorbed rapidly for a matte, non-greasy finish.

BEE PRODUCTS

Canadian Wildflower Honey

\$15 500ml

Our raw, unpasteurized, organic honey from Canadian wildflowers is truly the finest you'll ever taste!

Royal Jelly

\$89 100ml

Royal Jelly is the food created by the worker bee for the nourishment of the queen bee. It is a creamy light color and very rich in proteins and fatty acids. The benefits of Royal Jelly are far reaching and associated with prolonging youth, increasing longevity, immune system protection, supporting the adrenal glands, combating fatigue, helping in weight loss programs. It contains many of the most essential nutrients, including all the B vitamins, vitamins A, C, D, E, and K, more than 12 important minerals, 18 amino acids, as well as collagen, lecithin, pantothenic acid which is necessary for many metabolic processes. Everyone should consider taking this nutritious food to supplement their diet.

Propolis

ANTIBIOTIC, ANTIVIRAL, ANTIFUNGAL, ANTI-INFLAMMATORY, ANAESTHETIC & ANTI-CANCER

Propolis – as it is collected from the beehive. Has been proven effective in treating colds, hayfever, ulcers, bronchitis, pulmonary problems, colitis, canker sores and many other physical problems. Use as a daily supplement to boost your immunity. Place 10-20 drops in a glass of filtered water and drink.

Contains: 20% propolis tincture – Propolis and Alcohol

\$17 25ml
\$60 100ml refill

Pollen

SUPERIOR QUALITY FRESH POLLEN (NOT DRIED)

The nutritive, detoxifying, energizing and healing properties of bee pollen have long been recognized. Pollen contains every mineral and vitamin known, is higher in protein than steak, contains B12 needed by vegetarians, carbohydrates, essential fatty acids and has the highest enzyme-content of any food on this planet. It's truly a natural **superfood!** Our pollen is organic and fresh, so keep it frozen or refrigerated.
